To Come By Way of Manassas
Through Beautiful
Country.

(Special to The Times-Dispatch.)

WARRENTON, VA., February 10.—It seems to be an assumed certainty that at an early date, the preliminaries to a further extension of the electric railway from Washington to Fairfax Courthouse will be extended to this place by way of Manassas. This road, if run the route proposed, will open up one of the most picturesque and fertile sections in Northern Virginia, and no section will offer greater advantages to those who desire country homes that can be reached quickly from Washington.

HIGHLAND NOTES

(Special to The Times-Dispatch.)

MONTEREY, VA., February 10.—Another transfer of valuable property is reported this week. Mr. E. Dudley, formerly of Highland, but now a resident of Augusta county, has sold his valuable grazing lands in Crabbottom to Mr. H. E. Colaw, a retired merchant. The land is known as the Sterrett tract, and the price paid was \$18,000.

Two gentlemen from West Virginia are now in the Straight Creek neighborhood, taking options on mineral lands. One of them has made several visits to the section referred to—three miles east of Monterey—and believes he has found "blossoms" in the Jack Mountain spurs which indicate the presence of valuable mineral deposits. During the past few months large quantities of timber and mineral lands have been taken up by option or transfer, the record of deeds showing more than thirty actual purchases, with all or part cash payments. These facts, coupled with the repeated and persistent rumors of railroad operations in Highland, would appear significant and enlist more or less interest in the published reports relative to the Henry G. Davis railroad schemes hereabouts.

The delayed ice harvest came with the degree of the ground-hog, the temperature getting down to the necessary registering on that day, February 12, and since that date much ice of fine quality has been gathered.
